BIDS CALLED FOR PEARL HARBOR STRONGHOLD DR. COFER MAY BE HEALTH PRESIDENT

Dr. Cofer May Hold His Two Positions

News that will probably mean the reinstatement of Dr. L. E. Cofer as President of the Territorial Board of Health was this morning received by Governor Frear. Acting Secretary of the Interior Jesse E. Wilson has written stating emphatically that it is all right for a Federal official to hold a Territorial position, or, in his own words, for the same officer to hold two positions. In this matter, which was submitted to Washington some time ago, Mr. Wilson states that particularly in the case of Dr. Cofer it is all right for a Federal official to hold another position. When asked whether or not he would reappoint Cofer, Governor Frear stated that he had not yet got that far, he having received the news only this morning. However, his attitude in the matter appeared to be favorable to Cofer.

Shooting Boys Return From Splendid Trip

"It was a glorious trip. We had a grand time, and we will surely remember it as long as we live. Every one seemed to try to outdo his neighbor in showing us a good time, and there wasn't a moment of our time that we had to spare or to ourselves." These were the first words that William Chillingworth, Deputy United States Marshal, and a member of the rifle team of the National Guard of Hawaii which competed and made such a splendid showing at Camp Perry, Ohio, had to offer this morning, when asked what the most vivid impressions of his trip were. And he seemed to voice the sentiments of all the boys of Hawaii, the boys who went up against the crack rifle shots of the United States, and who carried off the laurels from twenty-four States and Territories of the Union in the competition. The shooters are all looking well, notwithstanding the tiresome journey which they have just finished, and the most of them are back at their respective work again. There is one peculiarity about these youngsters from the youngest Territory of the United States (though some of them are veterans in the work), and that is they are not satisfied with the showing they made. They all seem to feel that they could have done a great deal better, but, on some account, they fell down a trifle. However, they had every last team in the bunch up and going when it came to long-distance and rapid-firing work, and, from their statement, they would have been close around second or third on the first day. Instead of eighteenth, had they held up and maintained even their ordinary average for the same class of shooting.

Colonel Jones is tickled greatly with the work of the boys of his organization in the East, and states so emphatically. The result of the shoot justified all his hopes and expectations, and, to tell the truth, probably exceeded them. Snapshotted dozens of times a day, the Hawaiian boys were made heroes of by the people and the newspapers. And, indeed, they had good reason to, for the lads from the Paradise of the Pacific carried off all kinds of medals for their individual shooting. Sergeant Barry, however, showed that his work in the National Guard counts. When the train which carried the boys across the States arrived at Green River Junction, Nevada, it was stopped by a train wreck ahead. The engineer and fireman of the wrecked train had both been seriously hurt, and there was no doctor to be found. Harry, who had had experience in the regular Army in the Hospital Corps, volunteered to do what he could. He went forward and bandaged the wounds of the injured ones, and in so doing probably saved their lives. When the division superintendent of the railroad heard about it, he informed the boys of the honor.

DAN LOGAN RUNS FOR SUPERVISOR Mahelona Denies Report Of Job Promised By Lucas

Daniel Logan, the city editor of the Star, is the latest constellation to appear on the political firmament. He has decided to make a run for Supervisor and has taken a new method in approaching the subject by sending a circular letter to all the delegates to the Republican county convention, as follows:

Honolulu, September 10, 1908.
To Mr. Republican Delegate of Precinct, District, to County and District Convention.

Dear Sir:—With the approval of many voters of the First Precinct, Fourth District, I respectfully submit myself as a candidate for Supervisor of the City and County of Honolulu. I have been a resident of Honolulu for twenty-four years, have been all my life familiar with public affairs, and am a property-holder in my own precinct. First of Fourth, from which I am a delegate to the County Convention. If nominated and elected I shall use the office of Supervisor only for the good of all the people of the municipality to the best of my ability and judgment.

Your support and vote in caucus and convention is respectfully asked. Enclosed please find postcard for acknowledgment of this note.

Yours faithfully,
DANIEL LOGAN.

Logan is the oldest newspaperman in the Islands and is known as the Nestor, sometimes irreverently as the nest egg, of the local press. He has

MAJOR MCKINSTRY COMING ON BUFORD

Light House Engineer To Take Hand In Fight Over Dredging

Major McKinstry, in charge of the 12th lighthouse district, of which Hawaii is a part, is due to arrive from the Coast tomorrow by the transport Buford. Some of his assistants came in on the Alameda this morning. Major McKinstry will pursue his regular work here, in connection with lighthouse inspection, but he will also go into the matter of the dispute over harbor dredging, in which the contractors have locked horns with the United States Engineers' office here.

It was understood some time ago that the matter had been put up, in some form, to Major McKinstry, as it naturally comes under his jurisdiction. The next chapter of this trouble may be looked for as soon as he is on the ground. In the meanwhile, the dredging is in progress.

Kuhio Stands Ace-High

"Kuhio stands ace-high in Washington. Everyone respects him, listens to him, and believes what he says. He is the best man that Hawaii possibly could send back there as its representative, for he has already made good, and those in authority know that he has something important to say when he rises to speak. He has done a vast good work there, and he is in a position to go ahead with it as no other man possibly could. He has made friends, he has worked hard, he has accomplished things for this Territory, and, if sent back once more as a delegate, Hawaii would be a great gainer. I did not need to ask people there how he stood—I could see it—for they came to me and told me. I firmly believe, without any prejudice against any other candidate, that Kuhio is the only man for Hawaii's Delegate. — Land Commissioner Pratt.

Kepoikai Matter Is Taken Up

At last! At last! Governor Frear this morning received notice of the receipt of his letters regarding the Kepoikai matter in a letter which came from Jesse E. Wilson, Acting Secretary of the Interior. The letter was dated August 26th. It was feared that the data which the Governor sent East regarding Judge Kepoikai's alleged indiscretions had been lost, or not received there, but this doubt was all dispelled this morning. Mr. Wilson stated that the whole matter will be submitted to Secretary Garfield immediately upon his return to Washington.

L. B. Kerr & Co. have accumulated hundreds of remnants and odd lines from their big sale of the last three weeks. These are being got together and will be offered at a sacrifice next week. See their new advertisement today.

CAPTAIN FURUYA ADDRESSES PUPILS Tells Japanese Children To Be Loyal To Japan

"Be patient, be punctual and be loyal to your country and Emperor." With the above remarks, Captain Furuya of the Japanese training ship now in port, addressed the pupils of the Japanese school on Nuuanu street this morning. His remarks were brief, but they were instructive and right to the point.

"I am glad to be here today," commenced the Captain. "When I left Japan four months ago I traveled a good many miles. This is the first place where I have found and met a group of Japanese children. I feel more at home. I have seen your class work, which is excellent. Your deportment is good, and it is therefore an honor to your country and to the Japanese domiciled in Hawaii.

"Japan, though small in size, is one of the powers of the world. She has never been defeated. It is therefore your duty to grow up and be loyal to her. You, who are receiving education here, should do your part well. Whatever you do, do it punctually and patiently. The words 'punctuality' and 'patience' are short, but they are very important. They are the beginning of success."

R. Mashimo, principal of the school, (Continued on Page 6)

E. D. Fakey was arrested this forenoon on a charge of using threatening language. He is alleged to have produced a ravor in the Bananal saloon and to have threatened to cut the throat of a soldier, named Wm. Frost. The men were drinking at the time.

HAWAII COLLEGE KEEPS \$14,000

Is Allowed To Expend Balance On Current Expenses

The College of Agriculture and Mechanic Arts will have almost fourteen thousand dollars more to spend than was counted on. This has come to pass through the decision of the Bureau of Education at Washington that it may use the unexpended balance for the year ending last June, which it was thought by the trustees would have to be returned to the Treasury.

This welcome news was contained in a letter which was received this morning by Treasurer C. H. Cooke from Acting Commissioner Pierce. The paragraph of the letter which refers to this matter, reads as follows:

"With respect to the unexpended balance of \$13,805.90 over and above the liabilities for the period ending June 30, 1908, I beg to say that said balance should be retained in the treasury of the College of Agriculture and Mechanic Arts of Hawaii and applied to the current expenses of the institution."

CALL FOR BIDS ON PEARLHARBORWORK

Sealed bids for dredging a channel from Pearl Harbor to the sea were advertised for today in New York, San Francisco, and Honolulu papers, bids to be publicly opened in Washington on December 1st 1908, at 11 a. m. Authorizations came for these ads. from Washington, and they were inserted in the public prints simultaneously in the different parts of the country. The work for the Naval dock there has not yet been advertised for, as it is understood that the United States Engineers are still figuring on a cross section, on which the contractors can found an estimate.
